YOUR GUIDE TO KEEPING SAFE ONLINE

St.Helens
Safeguarding
Children Board

St.Helens
Council

We all want to use technology and have fun online, but we all want to keep safe and act responsibly.

This guide covers all technology, including computers, mobile phones and games consoles.

Remember, it's always safest to create your own password.

If we accidentally see something inappropriate on the internet, we should inform a responsible adult and not feel bad about it

We need to think carefully before publishing videos or images of ourselves on the internet

When using the internet at home or in school, we should always inform a responsible adult if we think someone or something is suspicious

In school we have the right to explore the internet so long as what we are doing is safe and legal

We accept responsibility for treating everyone online with respect and agree not to use any behaviour or language that could be offensive or upsetting to anyone else

We have the right to keep our personal information private and to only give it out when we believe it is safe to do so

“We should have the right to enjoy using the internet for all the fun and safe things it has to offer.”

We should think carefully before filling out forms or answering questions on the internet

Remember, if you are worried about your safety online, please click on CEOP 'Report'

We have the right not to be bullied on the internet or by text message and should report incidents of this to a responsible adult

“We should have the right to use the internet to contact other people so long as it is **safe** and we know who they are.”
